INTRODUCTION

RHINO SHOE - the premier brand of safety footwear which is renowned for its ultimate comfort, rock solid toughness and elegant design. Every pair of **RHINO SHOE** is hand made by highly skilled and experienced workers which pay the utmost attention and care to finest details, in fully equipped manufacturing facilities incorporated with the latest shoes making technology.

What makes **RHINO SHOE** difference is that, it is made with the users in mind. Countless of feedbacks were sought from users across different industries and the general consensus was that durable & comfortable safety footwear don't come cheap, while cheap safety footwear are usually not durable or comfortable. Therefore, our team was determined to develop a solution to tackle the issue and the end-result was the introduction of **RHINO SHOE** - the answer for users who require safety footwear which are comfortable, durable, elegant, and yet are reasonably priced.

Our shoes are manufactured under stringent quality control systems certified to ISO 9001 Standards and complied with international safety standards such as European CE Standard (S1, S1P, S3, etc.) as well as the Malaysian SIRIM MS 1599:1998. The steel toe cap and steel midsole used for **RHINO SHOE** are of the highest quality and they comply with EN ISO 20345 safety standards for impact, compression and also penetration protection. **RHINO SHOE** is developed by and a trademark of Safetyware Group - a leading safety products manufacturer and supplier with factory and offices in Malaysia, Singapore and United Kingdom.
