

PRODUCT HIGHLIGHT

Classic+ Series Safety Shoes

- Made with direct vulcanised technology (DVT) using state of the art machineries from Europe.
- DVT is a shoe making technology normally used in the production of military boots.
- It ensure exceptional bonding between the shoe upper and the nitrile-butadiene rubber (NBR) sole.
- Nitrile rubber as outsole material which is a versatile general purpose oil resistant polymer, with good solvent, oil, water and hydraulic fluid resistance.
- Upper material made by full grain buffalo DIN barton leather.

C-101 / C-101SP
