

# PRODUCT SPECIFICATION

## PHC Guarded Auto-Retract Safety Knife with Extendable Metal Guard

Item Code: EZ4

- Ultimate cutting tool for professionals who prioritize safety without sacrificing efficiency.
- This innovative knife features a spring-back blade that automatically retracts after each use, minimizing the risk of accidental cuts.
- The integrated metal guard moves in tandem with the blade, providing extra protection to the user and helping reduce product damage during cutting.
- allows for tool-free blade changes, making it quick and convenient to replace blades as needed.
- The contoured handle ensures a comfortable grip, while the ambidextrous design with a 3-button activation system makes it accessible for both right and left-handed users.
- The knife includes a tape splitter, reducing the need for blade use, and further enhancing safety.
