

PRODUCT SPECIFICATION

Metal Expendable Barrier with Roller

- This Metal Expandable Barrier is designed for versatile use in safety and crowd control applications.
- Built with durable metal construction, it features a scissor-style expandable design, allowing easy adjustment to the desired length.
- The barrier includes rollers for effortless mobility and repositioning, making it suitable for both indoor and outdoor environments.
- Its high-visibility yellow and black finish ensures maximum visibility in various settings.

APPLICATIONS

- Worksite Safety Barrier
- Industrial Areas
- Public Spaces
- Event or Traffic Management
