

HAND PROTECTION

Liquid-Proof / Chemical Resistant Gloves – OTHERS

ANSELL PVA Gloves

- Coated with Polyvinyl Alcohol (PVA)
- Provide excellent resistance to strong organic solvents such as aromatics and chlorinates (solvents that will quickly deteriorate rubber, neoprene and PVC-coated gloves)
- Caution: Do not use PVA Gloves in water or water-based solutions

Art No.	Description	Unit
15-554	14" PVA Gloves (DOSH Approval No. = JKPP HP 12/01)	pair
