

RESPIRATORY PROTECTION

SUNDSTROM SR 580 Protect Helmet with Polycarbonate Visor

- Complete protection of airways, head and face
- If required, may be complemented with most ear protectors for helmet mounting
- The breathing hose of the helmet with visor is to be connected to the fan, equipped with a filter
- The pressure generated in the visor prevents particles and other pollutants from entering the breathing zone
- Can be used with the SR 507 compressed air equipment to form a breathing apparatus designed for continuous air flow, for connection to a compressed air supply
- Can be used as an alternative for filter respirators in all situations
- Apply particularly to work that is hard, warm or of long duration

SUNDSTROM SR 584 / SR 580 Welding Shield / Helmet with Visor

- With the cassette in the raised position, the helmet's large clear visor may be used as face protection when clearing cinders and grinding
- Supplied with passive welding lens, shade EN10 with dimensions 90 x 110mm
- Face seal made of flame-resistant material
- The SR 584 welding shield is intended for use together with the Sundstrom SR 580 Helmet with visor
- The breathing hose of the helmet with visor is to be connected to the fan, equipped with a filter.
- The overpressure in the helmet's visor prevents particles and other pollutants from being admitted into the breathing zone
- Can be used with the SR 507 compressed air equipment to form a breathing apparatus designed for continuous air flow, for connection to a compressed air supply
- Protect against harmful gases, radiation and spatter during welding and similar work
- Can be used as an alternative to filter respirators in all situations
- Apply particularly to work that is hard, warm or of long duration

Escape Breathing Apparatus (EBA)

SUNDSTROM SR77-2 Escape Hood

- A filtering respiratory protective device combined with a hood for self rescue in the event of a fire or chemical emission accident
- The hood is based on Sundstrom silicone half face mask which is mounted in a hood made of flame-resistant material
- The hood can be put on quickly and simply without prior adjustment
- Protect against carbon monoxide and other toxic gases
