

SHOWA

6781R

Constructed with a triple-layered foam insulation and a strong neoprene coating, the SHOWA 6781R protects you from heat and cold.

FEATURES

- Fully neoprene-coated cotton jersey
- Triple layered foam insulation
- 12" Gauntlet
- Rough finish

BENEFITS

- Insulation against intermittent heat up to 500°F or cold
- Neoprene coating provides outstanding resistance to abrasion, cut and a wide range of chemicals

INDUSTRY

Automotive

Chemical

Metallurgy

Oil and Gas

IDEAL APPLICATIONS

- Chemical spray and treatment
- Coating preparation

TAA PRODUCTS

MADE IN USA

MATERIAL

- Cotton
- Single use

COATING

- chemical resistant
- Neoprene
- Water resistant

GRIP

- Rough

[USER INSTRUCTIONS

Protection against mechanical risks, with electrostatic properties. Do not use where there are chemical, electrical, thermal or entanglement risks. Wash at 40°C max. Performance levels as per standard EN388 retained after 3 washes, subject to variations linked to actual usage conditions. The performance levels apply to the coated surface only. Store in a dry place, away from the light. All clothing and shoes worn with the glove with electrostatic dissipation properties must also be designed taking the electrostatic risk into account. Do not use where there are chemical, electrical or entanglement risks. Wash at 40°C max. Performance levels as per standard EN388 retained after 3 washes, subject to variations linked to actual usage conditions. Store in a dry place, away from the light. Gloves must not come in contact with an open flame.

[DISCLAIMER
