Safety Containment Equipments

JUSTRITE Gator® Spill Containment Caddy

- It is the ideal choice for managing either 30 or 55 gallons drums (110L & 200L); nylon strap holds drum securely in place
- Drum Management – Transport up to 1250lb. (567kgs) loads easily and safely, minimizing back strain and injuries
- Ergonomically designed for tipping, with back kickplate positioned to assure weight is not absorbed by the spinal column while using the outer handles for leverage
- Measures 32" (W) x 72" (D) x 27" (H)
- Meets EPA and SPCC compliance requirements
