## SAFETYWARE NEWS

# SAFETYWARE IS PROUD TO BE IN THE FINALIST OF BEST BRAND BY THE STAR BUSINESS AWARDS 2014

25 November 2014, Kuala Lumpur, Malaysia – Safetyware, a leading brand in protection solutions, is among the top finalist for the Best Brand Award 2014 presented by The Star Business Awards at Bangsar South City, Kuala Lumpur.

The Star Business Awards aims to promote excellence and stimulate positive competition, particularly paying homage to local enterprises. This competition is organized by The Star newspaper, the property of Star Publications (Malaysia) Berhad, has more than 40 years of experience in the market with over 2 million readers. As its award tagline, “Honouring The Best In Malaysian Business”, this award goes to the company that has invested in building a strong local brand that is valued and appreciated by the public.

The judging of this competition remains stringent to ensure companies with top-notch quality are being selected and we are pleased to be a part of the finalist for the Best Brand Award. This recognition has proved that we have pursued the best and it has given us the spur to strive for a much greater heights. Besides, we are delighted that we shall be the inspiration and aspiration for many other growing companies.

In conjunction with the entitlement of Finalist for the Best Brand award, we are giving a sample coverall test of our newly launched Safetyware Ultitec Chemical Protection Coverall, a strong, durable and good breathability coverall that suits for all industrial and medical applications.

More information on The Star Business Awards can be found at <http://www.soba.com.my>.

## Occupational Safety & Health Outsourcing (OSHO)

With our team of dedicated Safety and Health consultants, Safetyware EHS Consultancy Sdn. Bhd. can actively develop innovative and cost saving solutions for people, technology, systems and operations. Safetyware EHS Consultancy Sdn. Bhd.'s approach to Safety and Health is built on our passion helping to create working environments in which every individual cares about the health, welfare and safety. Occupational Safety & Health Outsourcing services are designed and tailored to help organisations increase safety awareness and solve the safety issues.

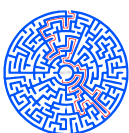

### Benefits of OSHO

- Gain Safety Knowledge
- Cost Saving
- Increase Safety Awareness
- Professional Consultant
- Business Improvement

### We Offer

- Various Type of Safety Training
- Accident/ Incident Investigation & Analysis
- Job Hazard Analysis
- Occupational Safety & Health Program Assessments
- Personal Protective Equipment Usage & Control
- and More

# SAFETY CABINETS

## Why we need Safety Storage & Containment Systems ?

- Prevent industrial fires, protecting both personnel and facilities
- Identify, organize, and segregate dangerous liquids
- Solvent to be stored near points of use
- Improve security with keyed locking mechanism

## SAFETYWARE Chemical Storage Safety Cabinets

- Store flammable and corrosive liquids safely in a Safety Cabinet
- Made with double-wall and with 18-gauge steel construction
- Comes with two vents with flash arresters that allow hazardous vapors to be piped away if required
- Integral leak-proof well contains accidental spills
- High performance, manual-cross doors open to a full 180 degrees and close easily and securely for maximum protection under fire conditions when pushed shut
- Three-point stainless steel bullet latching system makes it work safely every time
- Available in 30, 45 or 60-gallon capacities. Meet OSHA 29 CFR 1910.106 & NFPA regulations

## Yellow Safety Cabinets for Flammable Chemicals

### SAFETYWARE 30-gallon Safety Cabinet

Art. No. : SCY30

Capacity : 30 gallon(s) , 114 liter(s)

No. of Shelves : 1

Dimensions, Exterior : 43" W x 44" H x 18" D , 1090 W x 1120 H x 460 D (mm)

Dimensions, Interior : 39.5" W x 39.625" H x 14.562" D , 1003 W x 1006 H x 370 D (mm)

### SAFETYWARE 45-gallon Safety Cabinet

Art. No. : SCY45

Capacity : 45 gallon(s) , 170 liter(s)

No. of Shelves : 2

Dimensions, Exterior : 43" W x 65" H x 18" D , 1090 W x 1650 H x 460 D (mm)

Dimensions, Interior : 39.5" W x 60.5" H x 14.562" D , 1003 W x 1537 H x 370 D (mm)

### SAFETYWARE 60-gallon Safety Cabinet

Art. No. : SCY60

Capacity : 60 gallon(s) , 227 liter(s)

No. of Shelves : 2

Dimensions, Exterior : 33.5" W x 65" H x 33.5" D , 860 W x 1650 H x 860 D (mm)

Dimensions, Interior : 30.75" W x 60.5" H x 30.34" D , 781 W x 1537 H x 771 D (mm)

## Blue Safety Cabinets for Acid / Corrosive Chemicals

### SAFETYWARE 30-gallon Safety Cabinet

Art No : SCB30

Capacity : 30 gallon(s) , 114 liter(s)

No. of Shelves : 1

Dimensions, Exterior : 43" W x 44" H x 18" D , 1090 W x 1120 H x 460 D (mm)

Dimensions, Interior : 39.5" W x 39.625" H x 14.562" D , 1003 W x 1006 H x 370 D (mm)

### SAFETYWARE 45-gallon Safety Cabinet

Art No : SCB45

Capacity : 45 gallon(s) , 170 liter(s)

No. of Shelves : 2

Dimensions, Exterior : 43" W x 65" H x 18" D , 1090 W x 1650 H x 460D (mm)

Dimensions, Interior : 39.5" W x 60.5" H x 14.562" D , 1003 W x 1537 H x 370 D (mm)

### SAFETYWARE 60-gallon Safety Cabinet

## Why is PPE important?

Making the workplace safe includes providing instructions, procedures, training and supervision to encourage people to work safely and responsibly. Even where engineering controls and safe systems of work have been applied, some hazards might remain. PPE is needed in these cases to reduce the risk.

### Legal Requirements

The legislation that stipulates the provision of personal protective equipment for protection against hazardous substances can be found in the Factories & Machinery Act 1967 and a number of regulations made there under; and the Occupational Safety & Health Act 1994.

### What Do I Have to Do?

Only use PPE as a last resort.

If PPE is still needed after implementing other controls (and there will be circumstances when it is, eg head protection on most construction sites), employer must provide this for their employees for free of charge. Employer must choose the equipment carefully (see selection details below) and ensure employees are trained to use it properly, and know how to detect and report any faults.

### Selection and Use

You should ask yourself the following questions:

Who is exposed and to what?

How long are they exposed for?

How much are they exposed to?

When selecting and using PPE:

Choose products which are SIRIM, ANSI and CE marked in accordance with the Personal Protective Equipment – suppliers can advise you. Choose equipment that suits the user – consider the size, fit and weight of the PPE. If the users help choose it, they will be more likely to use it.

### Other Advice on PPE

Never allow exemptions from wearing PPE for those jobs that 'only take a few minutes'. Check with your supplier on what PPE is appropriate – explain the job to them. If in doubt, seek further advice from a specialist adviser.

### Maintenance

PPE must be properly looked after and stored when not in use, eg in a dry, clean cupboard. If it is reusable it must be cleaned and kept in good condition.

### Think About

Using the right replacement parts which match the original, eg respirator filters keeping replacement PPE available. Who is responsible for maintenance and how it is to be done? Having a supply of appropriate disposable suits which are useful for dirty jobs where laundry costs are high, eg for visitors who need protective clothing. Employees must make proper use of PPE and report its loss or destruction or any fault in it.

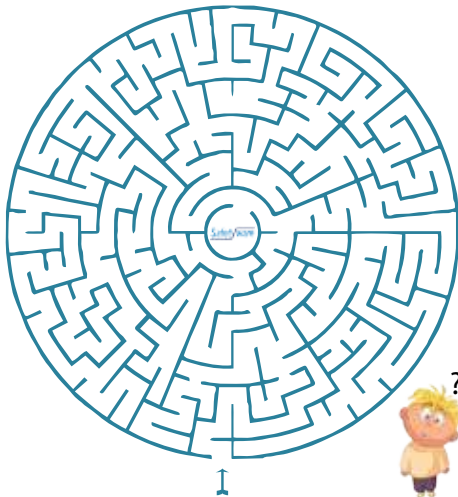

### Monitor and Review

Check regularly that PPE is used. If it isn't, find out why not. Safety signs can be a useful reminder that PPE should be worn. Take note of any changes in equipment, materials and methods – you may need to update what you provide.

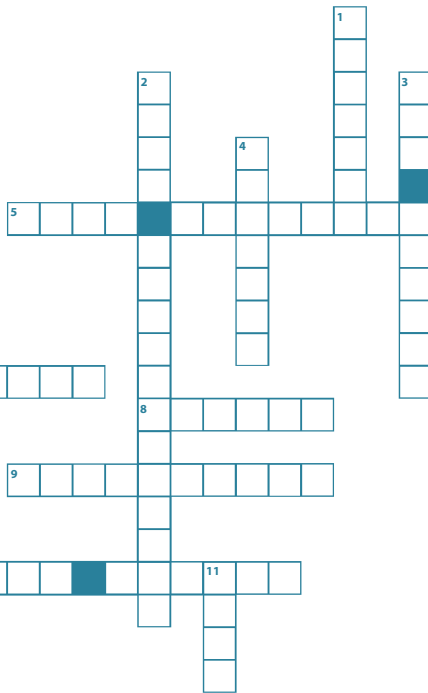

***“PPE is not about COST, it's life SAVER.  
Don't Save COST, Save a LIFE”***

-vanan-

# LEISURE TIME / TAKE A BREAK

Shawn would like to purchase full range of Personal Protective Equipment (PPE). Please lead him go to SAFETYWARE to fulfill his requirement.

## Complete the crossword beside:

### Across

5. Personal fall arrest system – keeping workers suspended upright in the event of a fall and supporting them while they await rescue
7. An object made of a soft, pliable material and inserted in the ear canal to protect the wearer's hearing from harmful noises
8. Use for eye protection against chemical splash, impact and dust
9. Designed to protect the wearer from inhaling harmful dust, fumes, vapor or gases
10. Designed to protect against top impact & lateral deformation from the front, side and rear
12. A protection for hand, often extending to the wrist and sometimes up to the elbow, which either covers each finger individually, or separates the thumb from the other fingers

### Down

1. A kind of visual graphic created to display information to a particular audience.
2. A metal container filled with chemicals that is used to put out a fire
3. Part of a garment that covers the arm
4. A substance that can absorb chemicals or oil
6. Footwear to protect your leg hit by heavy object
11. A filter that protect you from dust

## Safety Quiz

Answer 4 questions correctly and win a unit of the SAFETYWARE Atlas™ Safety Glasses.

1) What colour of the flammable liquid safety cabinets?

- A) Red      B) Yellow      C) Blue

2) What colour of the corrosive and acid safety cabinets?

- A) Yellow      B) Blue      C) Green

3) Name four items of personal protective equipment (PPE) required when entering a construction site?

- A) Safety shoe, Safety helmet, Safety vest, Safety glasses      B) Lab coat, Safety glasses, Enclosed footwear, Respirator  
C) Ear muff, Leather gloves, Safety helmet, Safety apparels

4) An extinguisher selection chart with an B rating is designed for use on which type of fire?

- A) A fire involving energized electrical equipment      B) A fire involving flammable liquids  
C) A fire involving burning metals

**\*\* PRIZE: SG-200 x 10 units**

## Terms and conditions:

- i) First come first serve.
- ii) The participant require to provide us a valid Company Name, IC Number, Contact details and Answer by sending email to marketing@safetyware.com.my
- iii) Prizes are not exchangeable or redeemable from SAFETYWARE for cash. Prize winners will be given a period of 7 (seven) working days to respond to this or any email communication and claim their prize. If the prize winner does not respond within this period, an alternate winner will be selected from the entry pool by random selection. SAFETYWARE reserve the right to change these proceedings without notice.
- iv) The Safety Quiz ends on 31 March 2015. The winners will be personally notified.
- v) All and any questions or disputes will be subject to the exclusive jurisdiction of the SAFETYWARE Management.

# PROMOTION

## JANUARY - MARCH 2015

(valid until 31 March 2015)

AMNC428E

Add On

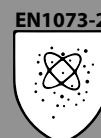

RM **1** each

### FEATURES

- The back of the coverall features a large panel of highly breathable Safeguard 76 material-in blue for easy identification.
- This enables the suit to breath easily and comfortable in the warmest of working environments.
- It is constructed using blue bound seams for superior strength proerties and improved particle and liquid repellency at the seams.
