RHINO SHOE TESTED & COMPLIED WITH SINGAPORE STANDARD SS 513 : 2013

5th September 2016, Singapore – Safetyware Group passed batch testing on Rhino Safety Shoes which inspected by Setsco Services Pte. Ltd. The test was conducted in Safetyware (SG) Pte Ltd on 15th August 2016. There were 3 types of TPU Series safety shoes being tested which include PU-3100, TP-3100SP and TP-6300SP. The test were conducted in 2 standards which is Part 1 - Requirements and Part 2 - Test Methods.

There were different types of tests conducted which include:

- 1) Internal toe cap length
- 2) Corrosion resistance of toe caps
- 3) Upper / Outsole bond strength
- 4) Impact resistance
- 5) Compression resistance
- 6) Flexing resistance
- 7) Penetration resistance

After the tests, Rhino safety shoes were found in accordance with SS 513 : 2013 requirement. It was another achievement for us.
