Business Management with “VA FASTEST” Model

Business Management is a daunting task for SME Business Owners, especially those who are newly involved in managing a business. It takes time to learn and gather experience and confidence. Many have to pay the price of costly experience to emerge smarter and wiser...

The “VA FASTEST” Model is aimed at giving Business Entrepreneurs a Simple and Practical guide to developing a healthy business organization.

VA inspires Business Entrepreneurs to adopt a **Total**, **Integrative** and **Creative** approach to Business Management incorporating the following nine key aspects: -

Vision :

“Every truly successful organization has a compelling Vision!”

Start your business with a clear vision, which will continue to inspire you and your team to progress towards the Vision.

Action :

Remember that Vision without Action is merely a Dream!

Focus on the Key Result Areas and take massive actions to achieve the desired results based on Key Performance Indicators (KPIs).

Plan and secure the appropriate source of Finance for the business. In the long run, sound Financial Management is crucial for sustainable growth irrespective of the original source of finance and business growth!

Finance & Financial Management:

Accounting & Accountability

This is necessary for planning, measuring and controlling the business and it is key to Financial Management.

Sales, Marketing & Branding:

Sales is the life-blood and heart of any business. It centers around Customer Focus and Customer Satisfaction! Branding and Marketing are the catalysts to sustainable and profitable sales.

It is obvious that we are in the Century of crazy technological breakthrough. Make best use of Technology as part of the product or part of the process of delivering the products / services.

Technology:

For Sustainable Growth, an organization must continuously learn, monitor and adapt to the dynamic business environment.

Key stakeholders' interests (both Internal and External) must be well taken care of consistently.

Environment:

Systems:

For improving effectiveness and efficiency, systemize the operations progressively, for examples, ISO, Lean Management, CRM, ERP & HRD System Implementation.

There is no Limit to the growth of the business with successful development of Internal and External Teams! Team Development is the basis of growth and Peak Performance in tandem with other aspects of Organization Development.

Team:

enhancing performance through
learning+wellness
