# About Us

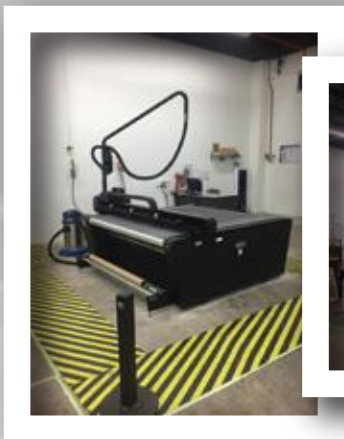

Safetyware ventured into the signage and printing industry in 2010. Our target is to ensure message is clearly delivered during at workplace. We expanded our operation in 2015 and re-branded our name to QUICKSIGN for better development in signage and printing industry.

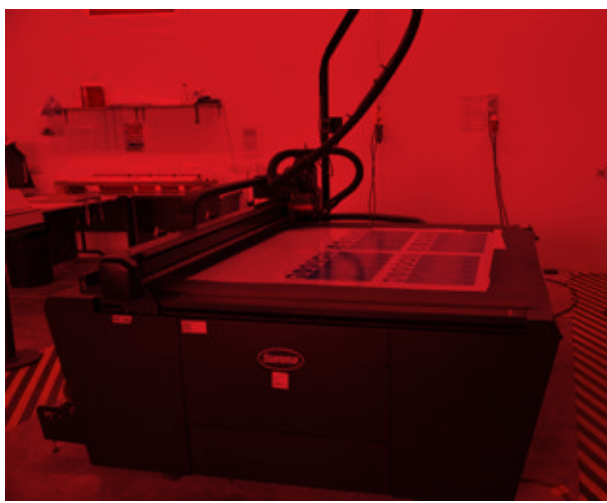

We believe signage is more than just a piece of plastic or sticker, rather we see it as a mean to bring your message out. That's why our mission is to make the whole visual communication process to be easier, better & more effective.

From simple plastic signage or labels, to more sophisticated dimensional signs, from simple banners & poster, to more visually appealing wallpaper aided by lightings, you can fully count on Quicksign.

Apart from quick & professional services, we are also a firm believer in providing solution which is greener & healthier. For example , we insist on using non-toxic solvent free latex ink when it comes to printing jobs, promote the use of biodegradable materials, promote the use of double side tapes as an alternative to drilling holes on wall, amongst many others.

1

## We Are Quick

We know what urgency means, that's why we strive to be quick. Regardless of the deadline you want to meet, be it audit, VIP visit or grand opening, we will make sure that what you order will be delivered on time & fuss free.

2

## We Are Professional

With Moto Press Slider you can create slides and galleries with layer based animations, meaning that you can add as much elements as you need, and supply each and every with a particular animation type. This plugin is absolutely ideal for powering up beautiful slideshows and giving them smooth animation. You'll benefit from a simple and intuitive setup interface and will be able to create responsive slideshow.

3

## We Custom Make Design

We listen to what you have to say, and formulate print solutions that suit you and your ever changing business needs.

## We Mean Quality

Equipped with state-of-the-art machineries & equipment from world renowned brand names such as Hewlett-Packard (USA), Graphtec (Japan), etc..., we are able to offer products not only with high quality, but with high consistency as well.

4

5

## We Offer Best Value

What's the use of cheaply priced products if they do not bring out your message effectively? If cheaply priced products are made with inferior quality material, it could mean more frequent replacement needs and hence higher cost in long run, worse still, it might lead to detrimental effect on your company or brand image. So instead of just focusing on making the products cheap, we focus on making sure that our solution can better suit your needs, and that you will get the best value & your money worth.

6

## We Are Greener & Healthier

We are committed in providing products made with greener & healthier material. We use solvent-free ink which is not only better for the environment, but also better for your health. We only use materials which are produced by reputable manufacturers so that you can be assured of our product safety & durability.
