SAFETYWARE Adjustable Cable Lockout

Item Code: LTC101

- Ideal for unusual equipment that cannot be locked with traditional equipment.
- Adjustable stainless steel cable for versatile energy isolation application.
- Outer layer of the cable is coated with transparent insulating coating with UV protection.
- The outer casing is made using impact resistant engineering plastic PC.
- Able to withstand extreme temperature of -46 ˚C to 149 ˚C.
- The 4-hole design allows multiple people to lock and manage hazards at the same time.
- Can be locked with 4 padlocks in which the diameter of lock shackle must be less than 7 mm.
- Comes with high-visibility, reusable, write-on safety labels to identify those in charge, then erase for the next job.
- Feed the cable end through the points to be locked out, then back through the lockout body. Cinch it tight to remove any slack.

Cable length:1.8m

APPLICATIONS

- LOTO
- Industrial
- Maintenance

TECHNICAL DATA

MATERIAL	Casing: Engineering Plastic Polycarbonate Wire: 6mm Stainless Steel Wire
CABLE LENGTH	1.8 meter
COLOR	Red
