

A close-up photograph of a mechanic's hands, wearing black and yellow safety gloves, holding a red and black Safetyware flashlight. The flashlight is pointed towards the engine of a blue car. The background shows the engine compartment with various components like hoses and a blue plastic cover. The overall scene is brightly lit, suggesting an outdoor or well-lit workshop environment.

**Safetyware**

SAFETYWARE GROUP  
*Responsibility & Care*

**SAFETY  
FLASHLIGHT**

**EXPLOSION-PROOF**

**SP-1**

**Explosion-proof LED Flashlight**

Colour	LED Power	Illumination	Working Current
Red	3W	240LX	700mA

- Non-conducting nylon polymeric material with high-strength and toughness, chemical corrosion resistance.
- LED light and Alluminum alloy.
- Anti-shaving coating polycarbonate lens, unbreakable.
- LED digital display screen, showing you how much electrcity has left
- Cree R5 LED with a life span of 50,000 hours. If the brightness reaches 240 Lumen, it can work 9 hours.
- Adopting lithium battery of Panasonic which can be charged 1200 times. USB charging.
- O-ring: water&dust-proof
- Design of anti-hand slip, easy to hold

**SP-2**

**Explosion-proof LED Flashlight**

**WATERPROOF & EXPLOSION-PROOF**

**SP-3**

**Waterproof & Explosion-proof Industrial Grade Flashlight**

Colour	LED Power	Illumination	Voltage	Battery Capacity
Yellow	1W	1,000LX	3V	1.5Ah

- IP55 waterproof level
- Explosion-proof, strong and impact resistance
- Usage time up to 100,000 hours
- High brightness illumination
- Large capacity battery

**SP-4**

**Waterproof & Explosion-proof Industrial Grade Flashlight**

Colour	LED Power	Illumination	Voltage	Battery Capacity
Yellow	1.5W	1,900LX	4.5V	1.5Ah

- IP55 waterproof level
- Explosion-proof, strong and impact resistance
- Usage time up to 100,000 hours
- High brightness illumination
- Large capacity battery
