PACIFIC HANDY CUTTER

INTRODUCTION

Introduction to Pacific Handy Cutter (PHC), Slice® & Klever®

For over 65 years, Pacific Handy Cutter (PHC) has been a trusted name in cutting safety, credited with inventing the world's first safety box cutter. Today, PHC continues to lead the industry with innovative tools designed to improve efficiency while reducing workplace injuries.

Joining PHC are two other global leaders in cutting safety:

Slice® – Known for its patented finger-friendly® ceramic blades, Slice delivers longer-lasting, rust-free blades that reduce the risk of accidental cuts without compromising performance.

Klever® – Specializes in enclosed-blade safety cutters, virtually eliminating direct blade contact while ensuring fast and effective cutting in retail, logistics, and packaging environments.

Together, PHC, Slice, and Klever represent the world's most trusted names in safety cutting solutions. Each brand brings unique innovations – from PHC's proven durability, to Slice's advanced ceramic technology, to Klever's enclosed-blade designs – offering businesses complete peace of mind when it comes to workplace safety and productivity.

Safetyware is proud to bring these leading safety cutter brands under one catalogue, ensuring customers have access to tools that are safe, efficient, and tailored for modern workplaces.

Cutting Tools Selection Guide:

Why Safety Cutters Are Important?

PREVENT INJURIES

Traditional utility knives are one of the leading causes of workplace lacerations. Safety cutters are designed to reduce blade exposure and minimize the risk of accidental cuts.

IMPROVE PRODUCTIVITY

Safer tools mean fewer accidents, less downtime, and more confidence among workers when handling materials.

REDUCE COSTS

By preventing injuries, companies lower medical expenses, compensation claims, and lost work hours. Longer-lasting blades also reduce replacement frequency.

PROTECT PRODUCTS & PACKAGING

Safety blades and enclosed designs help avoid damage to goods inside cartons, reducing wastage and customer complaints.

How to Select the Right Cutter for Each Application

When choosing a safety cutter, consider your work environment, material type, and level of safety required:

GENERAL CARTON CUTTING

Use retractable safety cutters (e.g., PHC) with spring-loaded blades that automatically retract after use.

Best for: Warehousing, logistics, packaging lines.

HIGH-SAFETY ENVIRONMENTS

Choose enclosed-blade cutters (e.g., Klever) where the blade is shielded, virtually eliminating blade-to-skin contact.

Best for: Warehousing, logistics, packaging lines.

PRECISION CUTTING

Opt for ceramic-blade cutters (e.g., Slice) with finger-friendly® blades that last longer and stay sharper without rusting.

Best for: Warehousing, logistics, packaging lines.

HEAVY-DUTY MATERIALS

Select industrial-grade cutters designed for tougher applications like cutting thick plastic straps, shrink wrap, or dense packaging.

Best for: Warehousing, logistics, packaging lines.

SPECIAL REQUIREMENTS (COMPLIANCE & METAL-FREE ZONES)

Use metal-free or detectable cutters for cleanrooms, food processing, and industries with strict compliance standards.

Best for: Warehousing, logistics, packaging lines.

PI4C

PACIFIC HANDY CUTTER™

PHC Range of Safety Cutter

Auto Retract without releasing your finger

E12304-4

Smart-Retract Rebel™ Safety Knife is designed for optimal safety & ergonomics

- Ambidextrous design
- Auto-Retract blade
- 0.67 in / 17mm cutting depth
- No tool blade change
- Integrated Safety Lock to prevent accident
- High-quality durable carbon steel blade

Spring-back blade that retracts automatically

EZ4

The EZ4 Guarded Auto-Retract Safety Knife features a spring-back blade that retracts after cuttings

- Ambidextrous 3 button design
- Auto-Retract blade
- Holds 5 additional blades
- Features tape splitter
- Integrated safety guards for top cuts
- Super easy tool free blade change

Multifunctional Uses

S7

S7™ Auto-Retract Ambidextrous Safety Knife with Film Cutter

- 3 blade depth positions
- Integrated film cutter
- Holds 3 additional blades
- Tool free blade change
- Guard can move in tandem with blade
- Blade can be utilized with or without the guard

Fixed Steel Guard For Extra Protection

S8

The ambidextrous S8™ Safety Cutter is another leading S-Series line of safety cutters

- 3 blade depth positions
- Dual-fixed steel safety guard
- Holds 5 additional blades
- Tool free blade change
- Unique ambidextrous twist and rotate design
- Integrated heavy duty tape splitter

NSF Certified Food Safe

RSC-432

The RSC-432 Food Safe Knife is NSF Certified and ideal for food service and manufacturing facilities

- Ambidextrous design
- Features tape splitter
- Sold in bag of 6
- 3-button activation
- Embedded blade can not fall out
- NSF Certified – Food Safe

Sturdy Metal Construction

QBS-20

The QBS-20 Quickblade® Auto-Retract Utility Knife is a combination of durability and safety cutter

- Ambidextrous 3 button design
- Auto-Retract blade
- Holds 5 additional blades
- Features tape splitter
- Integrated safety guards for top cuts
- Super easy tool free blade change

PHC Range of Safety Cutter

Super Compact Construction

PSC2-300

The PSC2-300 Pocket Safety Knife is ideal for cutting single wall corrugate, tape, and shrink materials

- Ambidextrous design
- Sold in Box of 12
- Super compact design
- Features tape splitter
 - perfect for small cutting jobs while on the go
- Auto-Retract Safety Point Blade

Enclosed/Hidden Blade Design

EBC1

The EBC1 is an Enclosed Blade Safety Cutter that's designed for high safety standards

- Ambidextrous design
- eliminates the risk of accident
- Enclosed Blade Design
- Features tape splitter
- Built to withstand the demands of industrial and retail environments
- Ideal for cutting shrink wrap, plastic strapping, box tape, and more

Accessories

B1117-9

Industrial Utility Blade, Pointed Tip

- Durable and long-lasting carbon steel replacement blade
- 100 per blade pack.

BB00205

PHC Blade Bank®

- Eliminates loose blades from the workplace
- Capacity for 750 used blades

QBD-379

Quickblade® Dispenser

- Holds 75 SPS-92 Standard Utility Blades with Safety Points
- Safely dispensing one blade at a time

S7FC

Replacement Film Cutter for S7™ Safety Knives

- Fits S7 Safety Cutter only
- Comes in pack of 3

SP-017

Safety Point Utility Blades

- Last 3 times longer than conventional blades
- 20 packs of 5

SPS-92

DuraTip® Safety Point Utility Blade

- Used in PHC Utility Knives and other standard utility knives
- 100 per blade pack.

UKH-324

Universal Single Knife Nylon Holster

- Loop belt through holster for easy tool access
- Helps employees retain cutters

KLEVER®

Kleever Range of Safety Cutter

KCJ-1X

The KCJ-1X Anti-Microbial Safety Utility Knife features a recessed blade to reduce injuries

- Advanced plastic polymers
- Disposable
- High quality carbon steel blade
- Ambidextrous design
- Integrated safety guards for top cuts
- Small, convenient, and durable

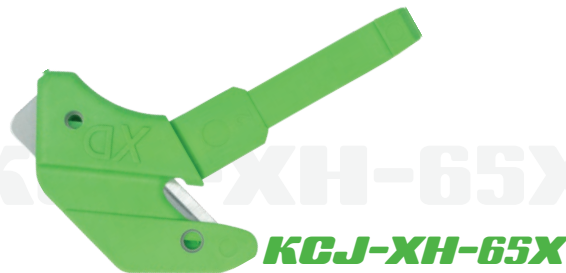

KCJ-XC-65X

The KLEEN™ XChangeXD is an EXTRA DURABLE recessed blade safety cutter

- Ergonomic soft-touch handle
- reusable antimicrobial handle
- replaceable blade head
- Integrated tape splitter
- Smooth-Kut™ technology for faster, clog-free cutting
- Concealed carbon steel blade to minimizes injuries

Accessories

KCJ-XH-65X

Kleen™ XChange Replacement Heads

- offers exceptional durability
- 400 pieces per case
- engineered to be 50% STRONGER and LAST 4X LONGER

slice®

SLICE range of safety cutter

00200

The 00200 Safety Cutter is an award-winning innovative tool that's safe, convenient, and versatile

- Finger-friendly® micro-blade
- Built-in magnet and keyring hole
- Ergonomic design and rubberized non-slip material
- Super easy tool free blade change
- Ambidextrous design
- Slice® blades last 11.2x longer

10494

The 10494 Smart-Retracting Metal-Handle Squeeze Knife combines safety without reducing productivity

- Smart retraction blade
- Chemically inert blade
- Easy-squeeze handle to expose blade
- Non-conductive blade for added safety
- Ambidextrous design
- Slice® blades last 11.2x longer

10512

The 10512 Auto-Retractable Pen Cutter allows you to work safely with a versatile tool that fits your workforce's fingers.

- Reinforced nylon handle
- Chemically inert blade
- Integrated lanyard hole for easy access
- Automatic spring-loaded retraction
- Ambidextrous design
- Slice® blades last 11.2x longer

10544

The 10544 Small Scissors are safe and comfortable, making them ideal for the work and a great option for kids

- Finger-friendly® blade
- Chemically inert blade
- Rounded-tip blades for additional protection
- Lightweight design and soft-touch finger grips
- Ideal for kitchen use
- Slice® blades last 11.2x longer

10559

The 10559 Manual Industrial Knife is a long-lasting, easy-to-use tool that keeps users safe

- Extra-long blade - 7.8 cm (3")
- Chemically inert blade
- Easy-grip slider to manually retract the blade
- Cutting thick materials such as foam and fiberglass insulation
- Ambidextrous design
- Slice® blades last 11.2x longer

10563

The 10563 Auto-Retractable Squeeze-Trigger Utility Knife is a versatile tool that safeguards your workforce

- Ambidextrous design
- Chemically inert blade
- Blade lock to prevent accidental blade exposure
- Easy-squeeze handle to expose blade
- Smart retraction blade
- Slice® blades last 11.2x longer

SLICE range of safety cutter

10589

The 10589 Craft Knife With Safety Cap gives you precision and protection

- Finger-friendly® blade
- Chemically inert blade
- Ambidextrous design
- Slice® blades last 11.2x longer
- Never-lost™ safety cap for additional protection
- Textured control grip for precision cutting

10591

The 10591 Manual Utility Scraper is great for removing all sorts of materials from different surfaces

- An easy-grip slider
- Chemically inert blade
- Ambidextrous design
- Slice® blades last 11.2x longer
- Sturdy handle with soft-touch comfort grips
- Super easy tool free blade change

Accessories

10404

Slice® Box Cutter Blades, Rounded Tip

- Non-conductive blade for added safety
- Pack of 4 blades

10518

Slice® Craft Blades with straight edges

- Chemically inert blade that never rusts
- Pack of 4 blades

10526

Slice® Utility Knife Blades, Rounded Tip

- 100% zirconium oxide blade that never rusts
- Pack of 3 blades

10524

Slice® Utility Blades (Rounded Tip)

- 100% zirconium oxide blade that never rusts
- Pack of 2 blades
